

Unite your workforce through the power of rhythm....

Influenced by a variety of cultures across the globe, United In Rhythm is a collection of powerful music and dance events that have been developed specifically to engage, energise and inspire. Anything from a short conference energiser, to a full blown 2000 piece Samba band with a grand finalé, United In Rhythm events are tailored to your specific needs and expertly delivered by our meticulously trained and highly experienced facilitators. Always fully inclusive, meaningful and fun, United In Rhythm events are guaranteed to leave your team on a high!

How they work

United in Rhythm - With a fascinating variety of carefully selected percussive instruments sourced predominantly from Brazil and tailored add-ons from around the globe, this event is set to encourage self-expression, guaranteed to inspire, impact emotions and prove that each individual's input will have an effect on the entire group and vice-versa. Delegates are given the opportunity to experience the exhilaration of playing energetic sequences with exciting breaks percussion in this high-impact facilitated environment.

Tap! - Tap into the incredible potential of what can be achieved when people work, think and act as one. In this refreshing package, delegates are given the opportunity to play as a rhythm ensemble, and with small percussive instruments work towards creating a big sound. In performing exciting rhythms, breaks and solos under the guidance of an expert facilitator, they will experience an event which is designed to motivate and produce a positive attitude. Tap! presents itself as a fantastic energiser, ice-breaker and teambuilding package all rolled into one.

All4One - This exceptional motivational package has been designed with genuine synergy in mind. In All4One, delegates are divided into teams and directed to separate workshop areas where they are given instruments and taught rhythmic patterns from regions around the globe. Upon being given the opportunity to explore their creativity in developing team breaks relating to each assigned region, all teams re-convene in a large designated area and perform to each other on stage in a spectacular finale!

Worldbeat - Using an impressive range of percussion instruments from around the world, this event has been developed to highlight the effect of teamwork, relationships and shared experience. The powerful combined sounds emanating from regions around the globe instill 'feel-good' emotions, and is an exhilarating experience not only to participants, but also to listeners. Worldbeat is a team-builder and energiser rolled into one and guaranteed to inspire!

United in Rhythm - Page Two

Groove-2-A-Tune - This highly popular and dynamic energiser serves to uplift and motivate groups in a very short space of time. Delegates perform a well-known song in a matter of minutes achieved through skilled facilitation and the use of brightly coloured plastic tubes that are pitched by length to become musical notes. Groove-2-A-Tune is a stimulating event that will leave delegates feeling upbeat and receptive after a fun-filled session. We have presented this package with great success around the globe at conferences with over 2000 delegates participating!

Step-by-Step - is a popular energiser formulated to unify participants in an instance. Delegates perform infectious rhythms, extraordinary patterns and vocal breaks all without any musical instruments! Using the body as percussive resource, delegates engage in creating amazing sound and groove cooperatively. Due to the physical nature of the exercise, it is visually and audibly exciting! We have presented this package around the globe to groups in excess of 2000 people.

Going for a Song - The combined power of self-realisation and collaboration can result in an extraordinary experience. 'Going for a Song' is an uplifting event which motivates delegates to be creative and expressive. Through facilitated vocal exercises and the use of the simple, but effective Kazoo instruments (by their very nature often creating light-hearted moments), participants will hear a familiar song emerge as they perform collectively with mutual purpose. This motivational package is fully customisable to suit conference themes.

Samba Rhythms - Samba music is full of life, inspiring and energetic. Delegates are taught to play authentic, colourful Samba patterns, infectious breaks and solos in a matter of minutes and work towards a rousing finale. This event is action-packed and sonically impressive! The Samba Rhythms package is highly flexible and also offered as an option allowing the client to divide delegates into various teams for workshops, and then reconvene for an exciting finale!
